12,115 individuals engaged through public education activities  
4 international forum memberships

## WHO WE ARE

For the past 30 years, Christian Action has relentlessly sought the well-being of over 250,000 refugees in Hong Kong. Today, our Centre for Refugees remains as the only platform of its kind in Hong Kong where 600 distressed survivors of war, torture and persecution are provided each month with a comprehensive support system which ensures that their most basic needs are met, that children and adults have access to education and psychosocial support, and that they are respected by Hong Kong society. We do this with the vision that refugees are secure, empowered, healthy, and live with dignity during their time of transition in Hong Kong.
