

## PACKAGE OF SERVICES: AWARENESS, OUTREACH, AND TEAMBUILDING SESSIONS

### REFUGEES IN HONG KONG

Across the world, over 60 million refugees and asylum seekers are struggling on the margins of society regardless of their race, age, gender, ethnicity, or religion. In many cases, they are traumatized by persecution, torture, and violence in their home countries, which is further compounded by the fact that in Hong Kong, they are often viewed with suspicion and face prejudice fuelled by resentment and fear.

### CHRISTIAN ACTION CENTRE FOR REFUGEES

Our Centre for Refugees was established at in 2004 and is the first and only community centre for refugees and asylum seekers in Hong Kong. Each month, we provide 600 vulnerable families and individuals with hot meals, clothing, shelter, and other basic necessities. We also help parents get their children into school through our sponsorship programme and make ways for adults to learn new skills. We provide case workers, advocacy support, counsellors, referrals for medical support and legal assistance, and raise funds for housing and other necessities.

### AWARENESS WORKSHOPS AND OTHER SERVICES

Spreading awareness and providing platforms for the local community to engage with refugees is one of our core priorities. Only with awareness can tendencies to react, to push away, or to retaliate be replaced with allowance, acceptance, tolerance, and empathy.

With over 12 years behind us, our workshops are tailor made for different age groups and settings including schools, universities, corporate organisations, faith-based institutions, and other community organisations. Through these highly interactive sessions, we educate our participants on the plight and cultures of refugees in Hong Kong and around the globe. Most of our workshops are facilitated by one of the refugees who has been in Hong Kong since 2004 and has been granted permission to work here.

Since 2015, we have reached over 35,500 people through such activities and developed several partnerships with primary and secondary schools to incorporate the study of forced displacement into their curriculum.
