

FOR THIS NEW YEAR SEND A GIFT TO DISABLED CHILDREN IN QINGHAI

During this “tumultuous” time in history, will you sponsor or consider giving a gift to children in need in lieu of a festive gift to your friends and family?

The relocation of the Xining Children Home means Christian Action is able to expand our service to offer rehabilitation training to more children with disabilities in Qinghai, and it also acts as a training base for caregivers and serve as a guidance centre. We will be serving hundreds of children from our home and the community.

Physical Activity Room

The physical activity room has electronic equipment similar to those we find in a standard gym such as exercise bicycles and treadmills, but this exercise equipment has been designed or adapted for users with various degrees of disabilities, especially cerebral Palsy children.

With the right training and regular exercise, they can improve on their freedom of movement and mobility; it helps to maintain balance and coordination.

Pottery Room

This is an art focused room that uses pottery to stimulate and encourage children to practice their strength, abilities and creativity in creating a clay product. It is mentally challenging as it requires focus and uses fine and gross motors. It gives a great sense of accomplishment when one can make a physical product as a reward of much therapeutic and rehabilitation work.

Sponsorship for Rehab Equipment in the Pottery / Physical Activity Rooms at Xining New Children's Home
Total Funding: HKD 130,520 (USD 16,960)
